

**Subject Line:** ICM Registry RSP Transition Commencing 29 October 2019 - Updates

Dear Registrar:

We are happy to provide you with an update on our upcoming Registry Service Provider (RSP) migration. The transition from Afilias to Uniregistry will affect our ICM Registry portfolio of TLDs (.adult, .porn, .sex, .xxx).

Our migration timeline is as follows:

- Beginning Friday (6<sup>th</sup> of September), the Uniregistry team will engage with all ICM Registrars to initiate the RSP transition and provide any technical support you may require.
- Starting on the 9<sup>th</sup> of September, Uniregistry will email login credentials to access the Uniregistry OT&E environment.
- The RSP migration will proceed at 16:00 UTC on 29 October 2019 - the entire migration is expected to take up to four hours.
- The RSP migration will also consolidate ICM invoicing with MMX. This will include converting the existing ICM prepayment system on adult TLD properties to MMX's end-of-month invoicing system. Moving forward, you will receive one monthly invoice for all MMX TLDs including .adult, .porn, .sex and .xxx.

Please note: Dates are contingent upon ICANN approvals and may be subject to change.

If you require any information regarding the RSP migration please visit the [RSP Migration website](#) or contact our support team at [support@mmx.co](mailto:support@mmx.co).

Kindest regards,

MMX Registry Support Team
