

Dear Registrar:

In just **12 days**, we will be transitioning Registry Service Provider's from Afilias to Uniregistry on the ICM Registry portfolio of TLDs (.adult, .porn, .sex and .xxx).

We want to ensure a seamless transition for all of our registrars and request that you onboard with Uniregistry at your earliest convenience.

- **If you're already accredited with Uniregistry**, you will still need to login and connect to this new instance of the Uniregistry platform. Your existing credentials will allow you to access both the OT&E and production platforms. Information on onboarding can be viewed [here](#).
- **Registrars who are new to Uniregistry** should have received OT&E credentials from Uniregistry on the 24th/25th of September. If you did not receive this [notice](#), please send us an [email](#) to receive your credentials.

To avoid the last-minute rush, we kindly request you to familiarize yourself with the EPP interface and access the OT&E platform prior to migration on **Tuesday, the 29th of October 2019**.

If you require any additional information or support, please contact our dedicated migration support team at icm-support@mmx.co or visit the migration website at <http://icmregistry.com/migration/>.

Kind Regards,

MMX Registry Support Team
