

Uniregistry RSP Notice - MMX / On-boarding has started for ICM Accredited Registrar Partners

Dear Registrar Partner,

Following our recent communication regarding the forthcoming RSP migration for MMX's ICM Registry portfolio of TLDs - .ADULT .PORN .SEX .XXX – we are pleased to confirm that the on-boarding process for the new ICM registry instance has started.

If you are already accredited with Uniregistry, or have recently on-boarded with Uniregistry for the AdultBlock via MMX, we have taken action in the following form:

- ICM Registrars with an existing Uniregistry account (not on-boarded to AdultBlock) – your account (inc. password & credentials) has been successfully copied into OT&E and Production, including console users.
- ICM Registrars already on-boarded with Uniregistry by MMX via AdultBlock – if you fall into this category – you will already have been provided with a new EPP password and console access by MMX. Additional console users in your Uniregistry accreditation (if any), were also copied over.

Directions:

| Tool | OT&E | Production |
|-------------------|-----------------------------|-------------------------|
| Registrar Console | console-ote.registrar.adult | console.registrar.adult |
| EPP | epp-ote.registrar.adult | epp.registrar.adult |
| WHOIS | whois-ote.registrar.adult | whois.registrar.adult |

- Certificates: You will use the same TLS certificates for connecting to Uniregistry EPP servers.
- EPP Passwords & Console Credentials: You will use the same EPP password and console credentials for connecting to Uniregistry, unless new passwords / credentials have been received via MMX following successful on-boarding for AdultBlock.
 - Changing User / EPP Passwords: You can change these directly in the Registrar Console or via EPP.
 - Adding New Registrar Console Users: Please email our dedicated ICM migration support team at icm-support@mmx.co and we will be happy to help - please include user FULL NAME and EMAIL ADDRESS.
- Technical Documentation: Available at <https://console.registrar.adult/manage/documents>, which provides you with;
 - EPP Technical Operations Guide
 - .XXX Registrar Manual
 - ICM Specific Details

Collective TLD migration (.ADULT .PORN .SEX .XXX) – planned for Tuesday 29th October (subject to change) - we will provide a detailed schedule along with an updated estimate closer to the migration date. We will send both a migration 'reminder' and successful 'conclusion' notice to you.

We are here to help – so if you have any questions regarding the migration and associated on-boarding process, please contact Uniregistry's dedicated support team for the ICM migration at icm-support@mmx.co or visit the ICM Migration Website for regular updates & information.

Kindest regards,
Uniregistry Support Team
