

Policy Overview and Definitions

Overview

The following policies, which govern the top-level domain (TLD or Registry), are based on policies and best practices drawn from ICANN, WIPO, and other relevant sources, and is written to be consistent with ICANN Consensus Policies. Specifically, the Registry Policies include the following interrelated policies, terms, and conditions (together the “Registry Policies”):

- a. This Overview, including Definitions.
- b. The Naming Policy, which describes reserved and blocked (prohibited) domain names;
- c. The Acceptable Use Policy (AUP), which describes the types of acceptable uses for domain name registrations;
- d. The Registrant Agreement, which Registrars must present to Registrants (as a requirement of the terms of the Registry-Registrar Agreement), and which Registrants must acknowledge and agree to in order to register a domain name; the Registrant Agreement binds Registrants, at the time of initial registration, domain renewal, or domain transfer, to the Registry Policies (which also includes by reference: ICANN-mandated rights protection mechanisms such as the Uniform Rapid Suspension service (“URS”), Uniform Domain Name Dispute Resolution Policy (“UDRP”), and other ICANN Consensus Policies, as may be amended from time to time);
- e. The Privacy & Whois Policy, which describes how a Registrant’s Personal Information may be used by the Registry and in some cases, third parties;
- f. The Registry-Registrar Agreement (RRA), is the agreement between the Registry and each ICANN-accredited Registrar authorized to sell domain names within this TLD.
- g. The .boston Launch Phase Policies, which describes the timing and other factors related to various exclusive registration periods for specific constituencies.

The Registry policies form a cohesive framework and must be read in conjunction with one another, as well as with other applicable agreements, policies, laws, and regulations which, taken together, represent the entirety of the obligations and responsibilities with regard to any domain name registration.

Background

The Registry Policies are designed to promote transparent and non-discriminatory rules for the registration of domain names within this TLD, including fair and competitive pricing and competition at the Registrar level; protection of Registrant data and privacy; adherence by Registrants to the AUP; protection of intellectual property rights; protection of certain terms; prevention of the registration of illegal terms; prevention of violations of the law or abuse of the Domain Name System (DNS), including criminal acts; and to align use of the TLD with the applicable self-regulatory environment.

These policies provide that the TLD may, when necessary, implement Registry-level “Registration suspensions” for AUP violations. The registration and use of a domain is subject at all times to the

Policy Overview and Definitions

Registry Policies, which provide the means to address crime, prohibited content, intellectual property abuses and other issues of concern.

Definitions

Abuse Point of Contact: an agent of the Registry appointed to review complaints for compliance with these Policies.

Acceptable Use Policy (or AUP): a policy that describes the types of acceptable uses for domain name registrations.

Blocked Names: a list of domain names, appearing on a list of blocked names, which list is subject to additions and modifications from time to time, which are indefinitely unavailable for registration.

Boston Community Domain(s): Is a Domain Name registered by a Boston Community Organization during the Boston Sunrise Period and anytime thereafter within the Registry. Boston Community Domains are Domain Names which may only be comprised of legal names, d/b/a's, or trade names generally associated with a Boston Community Organization applicant. Boston Community Names may not include names that are generic or of general interest in nature, e.g., related to sports, news, or for-profit commerce.

Boston Community Organization(s): City of Boston governmental entities and non-profit organizations categorized under Sections 501(c) 3, 4, 8-10, 13, and 19 of the United States Internal Revenue Code that provide services or support to residents within Boston or are located within Boston and provide services outside of Boston.

Boston Community Period: The period following the Sunrise Period during which Community Organizations may exclusively register Boston Community Domains.

Boston Community Registrar: The ICANN-accredited registrar thru which Boston Community Domain(s) are to be applied for and registered.

Boston Consumer Advocate: an agent of the Registry appointed to review complaints exclusively from city of Boston residents after such complaints have been first reviewed and decided by the Abuse Point of Contact.

Data Escrow: the process of keeping a copy of critical data, including Whois data, with an independent third party.

Domain Name: an identification string that represents an Internet Protocol resource, usually a server computer hosting a web site, which identification string is to the left of the dot in a URL. E.g., in "internic.net", the domain name is "internic."

Domain Name System (or DNS): the system that helps people find their way around the internet. Every computer on the internet has a unique address, which is a string of numbers, called an "IP address" (IP stands for "Internet Protocol"). Because IP addresses are hard to remember, the DNS makes using the internet easier to navigate by allowing a familiar string of letters (the domain name)

Policy Overview and Definitions

to be used instead of the IP address; so instead of typing ""192.0.43.9", internet users can type "www.internic.net".

Domain Lock: a status code that can be set on a domain name in order to prevent unauthorized, unwanted or accidental changes to the domain name's ownership or technical information. When set, the following actions are prohibited: (i) modification of the domain name, including transferring the domain name; (ii) deletion of the domain name; and (iii) modification of the domain name contact details. Where a Domain Lock is applied, renewal of the domain name is still possible.

EPP (Extensible Provisioning Protocol): an industry standard for how Registrars communicate with Registries.

Escrow Agent: a third party contracted to perform data escrow services for the Registry.

ICANN (the Internet Corporation of Assigned Names and Numbers): the organization that creates the rules for, and ensures the technical stability of, the internet.

ICANN Consensus Policies: domain name-related policies created through ICANN's multi-stakeholder consensus-based consultation process to govern certain actions related to domain names, Whois, and other ICANN-related functions; [the current list of ICANN Consensus Polices can be found here](#).

Identical Match: means that a domain name consists of the complete and identical textual elements of a Trademark Clearinghouse-validated trademark. In this regard: (a) spaces contained within a mark that are either replaced in a domain name by hyphens (and vice versa, as the context allows) or omitted may be disregarded for determining Identical Matches; (b) certain special characters (e.g., "@" and "&") contained within a trademark that are spelled out in a domain name with appropriate words describing it may be disregarded for determining Identical Matches; (c) punctuation or special characters contained within a mark that are unable to be used in a second level domain name may either be (i) omitted or (ii) replaced by spaces, hyphens or underscores and still be considered Identical Matches; and (d) no plural and no "marks contained" (i.e., "brandx" in "brandxproducts") qualify for treatment as Identical Matches.

Identifier: a number assigned by the Registry to a Registrant to uniquely identify the Registrant for the purposes of the Registry's operations and to preserve the Registrant's privacy; an individual's name is not used as an Identifier.

IP (Internet Protocol): the technical protocol that allows computers to find and communicate with each other on the internet.

IP Address: a numerical address for a computer connected to the internet.

Naming Policy: the policy that describes reserved and blocked (prohibited) domain names.

Name Server: the server that maps the domain name to an IP address.

Personal Information: means information about an individual person, including any Registrant, whose identity can reasonably be ascertained from such information, but does not include indexes or aggregations of Personal Information relating to more than one person, such as logfiles, DNS Zone

Policy Overview and Definitions

Files, databases or backups. This information may include the name, address, telephone number, and email address of the Registrant. This may include the home address and personal email of the Registrant, if the Registrant uses those as their primary contact information for the domain name.

Primary Purpose: the reasons for the Registry's collection of Personal Information, which is the storage and maintenance of such information in the Whois database (a copy of which ICANN requires is provided to the Escrow Agent) as required by ICANN, which is searchable and publicly available.

Privacy & Whois Policy: a policy document that describes how a Registrant's Personal Information may be used by the Registry and in some cases, third parties.

Prohibited Use: a use of the domain name that is illegal or expressly prohibited by the Policies, especially the Acceptable Use Policy.

Registrant: a person, whether an individual or business entity, in whose name a domain name is registered.

Registrant Agreement: the document which Registrars must present to Registrants (as a requirement of the terms of the Registry-Registrar Agreement), and which Registrants must acknowledge and agree to in order to register a domain name; the Registrant Agreement binds Registrants, at the time of initial registration, domain renewal, or domain transfer, to the Registry Policies (which also includes by reference, ICANN-mandated rights protection mechanisms such as the Uniform Rapid Suspension service ("URS"), Uniform Domain Name Dispute Resolution Policy ("UDRP"), and other ICANN Consensus Policies);

Registrar: an entity, accredited by ICANN and under contract with the Registry, through which a business entity or individual may register a domain name.

Policy Overview and Definitions

Root Servers: the authoritative name servers that serve the DNS root zone; a network of hundreds of servers in many countries around the world.

Sunrise: the exclusive period in which trademark owners may register the Identical Match of their trademark as a domain name prior to general domain name availability in the TLD.

Term: the period of registration of a domain name. The initial Term may be between one (1) and ten (10) years, but registration renewals may extend the Term.

Top Level Domain (or TLD): anything to the right of the final dot in a domain name; e.g., “.com”, “.net”, “.ie”.

Trademark Claims Service: the service which gives notice to a prospective domain name registrant at the time of registration that the desired domain name may infringe a trademark; also provides electronic notice to a trademark rights holder that a domain name is an Identical Match to their trademark or to a previously-adjudicated infringing string has been registered. The prospective Registrant must warrant that: (i) they have received notification that the mark is registered in the Trademark Clearinghouse; (ii) they have received and understood the notice; and (iii) to the best of their knowledge, the registration and use of the requested domain name will not infringe on the rights that are the subject of the notice. If the domain name is registered subsequent to the notice being issued and the registrant attesting to its non-infringement, the registrar (through an interface with the Clearinghouse) will notify the mark holder(s) of the registration.

Shared Registry System (SRS): the system that allows multiple Registrars to register domain names in a Registry.

Whois: an ICANN-mandated tool that displays the Registrant, Name Server, expiration date, and contact information for a domain name. Whois information is public and searchable, and may include Personal Information, including but not limited to:

- a. Technical information on the DNS Name Servers resolving a domain name;
- b. The date the domain name was inserted into the Registry’s database;
- c. The date of last modification;
- d. The date of expiration;
- e. The current status of the domain name;
- f. The Registrar’s contact details;
- g. The Registrant’s name;

- j. The Registrant's state and/or alternate address;
- k. The Registrant's country and/or alternate address.
- l. Details of nominated administrative, technical and billing contacts.

WIPO: the World Intellectual Property Organization, an international body responsible for the promotion of the protection of intellectual property throughout the world and historic partner with ICANN for UDRP proceedings.

Naming Policy

This Naming Policy sets forth the rules and guidelines concerning the availability of any domain name registered in this TLD. Here are the most current version of this Naming Policy and related material, including lists of Reserved Names, Blocked Names, and [names that are blocked by ICANN](#). Certain other reserved and blocked names are provided exclusively to accredited Registrars.

This Naming Policy is part of the Registry Policies, which form a cohesive framework and must be read in conjunction with one another, as well as with other applicable agreements, policies, laws, and regulations which, taken together, represent the entirety the obligations and responsibilities with regard to any domain name registration.

Actual or attempted registration of a domain name in contravention of this Naming Policy may result in a Registrant being forbidden from registering domain names and/or the suspension or revocation of such Registrant's right to continue to be recognized as the Registrant of the non-compliant domain name or any other domain name. Suspension or revocation may, as determined in the Registry's sole discretion, with the cooperation of the sponsoring Registrar, apply to one or more of the Registrant's domain names.

The Registry reserves the right to modify or update this Naming Policy at any time and from time to time, and any such modifications or updates shall be posted on the Registry website. Once posted, such modified or updated Naming Policy shall apply to all Registrants.

1. Reserved Names. Reserved names may be reserved by ICANN or the Registry.
 - a. Reserved Names:
 - i. ICANN Reserved Names:
 - A. [IGO/NGO Names](#)
 - B. Country Codes
 - ii. Names Reserved by the Registry:
 - A. Some domain names are reserved by the Registry for use in its operations.
 - b. In the event that a Registrant has mistakenly been allowed to register a Reserved Name, the Registry will, in its sole discretion, with the cooperation of the sponsoring Registrar, cancel or transfer such domain name. Any fees paid by the Registrar to the Registry will be refunded but the Registrant and the Registrar shall have no further recourse under the Registry Policies or otherwise.

 - d. Registrants are not allowed to register a domain name that might be considered confusingly similar to a reserved name, In the event that Registry determines, in its sole and absolute discretion, that a domain name is confusingly similar to a reserved name, the Registry reserves the right to cancel or transfer such domain name registration as provided for in, and take such further action as authorized by, the Registry Policies.

Naming Policy

- e. Registrants are not allowed to register a domain name that, (x) consists of any name or title of any City of Boston department or commission, any City of Boston facility, any official City of Boston sponsored event, or any functions, duties, or services provided by the City of Boston to its residents, or (y) misrepresents or falsely implies an association with, or sponsorship or endorsement by, a City of Boston department or commission, a City of Boston facility, an official City of Boston sponsored event, or the carrying out by the Registrant of any functions, duties, or services provided by the City of Boston to its residents. In the event that a Registrant has registered a domain name that Registry determines, in its sole discretion, falls into any category set forth in the immediately preceding sentence, the Registry reserves the right, in cooperation with the sponsoring Registrar, to cancel or transfer such domain name registration as provided for in, and take such further action against Registrant as authorized by, these Registry Policies.
2. Blocked Names. The Registry reserves the right, in its sole discretion, to block certain names and terms from registration. The Registry may also block certain Domain Names in accordance with applicable law or ICANN Consensus Policies.

 3. Infringing Domain Names. Registrants are not allowed to register domain names which include terms that infringe upon intellectual property or other rights. More extensive discussions of infringement and the rights and responsibilities of both the rights holder and the alleged infringer can be found at ICANN's discussion of the [UDRP](#), [URS](#), and the [TMCH claims service](#).
 - a. Terms that may infringe upon the rights of others include, but are not limited to:

 - b. Registration or use of a domain name may be infringing if:
 - i. the domain name is identical or confusingly similar to a personal name, company, business, or other legal or trade name, or to a trade or service mark in which a third party has uncontested rights, including without limitation in circumstances which:
 - 1) the registration or use is likely to deceive or confuse others in relation to the source of goods or services provided under or in relation to, or in respect of similar goods or closely-related services of a registered trademark; or
 - 2) the registration or use deceives or confuses others in relation to the source of goods or services in respect of which an unregistered trademark or service mark has become a distinctive identifier of the goods or services of a third-party

complainant and in which the third-party complainant has established a legal right;
or

The Registrant is solely liable in the event that the Registrants' use of a domain name constitutes an infringement or other violation of a third party's intellectual property or other rights.
 - d. In the event that any party disputes a Registrant's legal right to register and/or use a domain name that allegedly infringes the rights of another or that allegedly infringing material is displayed on a website that is resolved via the domain name, the Registrant shall act in accordance with and agrees to be bound by ICANN's policies, including the UDRP and URS, and by the Registry Policies, as applicable.

Acceptable Use Policy

Introduction

This Acceptable Use Policy (AUP) sets forth the terms and conditions for the use by a Registrant of any domain name registered in the top-level domain (TLD).

This Acceptable Use Policy (AUP) is part of the Registry Policies, which form a cohesive framework and must be read in conjunction with one another, as well as with other applicable agreements, policies, laws, and regulations which, taken together, represent the entirety the obligations and responsibilities with regard to any domain name registration.

The current version of the AUP will be made available on the Registry website. It applies to any domain name registered in the TLD, no matter when or how registered, renewed, or transferred. Where a Registrant licenses or leases the domain name or any sub-domain names obtained under these Registry Policies, the Registry and the sponsoring Registrar shall hold the Registrant solely liable for activity in the domain name and in any sub-domain, if applicable.

The Registry supports the free flow of information and ideas over the internet. The Registry does not and cannot exercise editorial control over the content of any message or web site made accessible by domain name resolution services in the TLD.

The Registry, with the cooperation of the sponsoring Registrar, may suspend, revoke, transfer, or modify the information or services provided in relation to any domain name (for example, through modification of a Registry Zone File) to address alleged violations of this AUP (described further below). The Registry shall have the authority to determine, in its sole discretion, whether use of a domain name is a prima facie violation of this AUP. The Registry or affected third parties may also utilize ICANN-sanctioned procedures, such as the Uniform Domain Name Dispute Resolution Policy (UDRP) or the Uniform Rapid Suspension (URS) system and/or applicable courts including those in the jurisdiction and venue specified in the Registrant Agreement.

Registrants are obliged and required to ensure that their use of a domain name is at all times lawful and in accordance with the requirements of the Registry Policies and applicable laws and regulations, including those of the Registrant's country of residence and ICANN Consensus Policies, including but not limited to those that relate to privacy, data collection, consumer protection (including in relation to misleading and deceptive conduct), fair lending, debt collection, disclosure of data, and financial disclosures. Registrants who collect and maintain sensitive health and financial data must implement reasonable and appropriate security measures commensurate with the offering of those services, as defined by applicable law. Where applicable, Registrants represent that they possess any necessary authorisations, charters, licenses and/or other related credentials for participation in the sector associated with the TLD; material changes to the validity of such credentials must be reported to the Registry.

The Registry reserves the right to modify or amend this AUP at any time and from time to time and any such updates shall be posted on the Registry's website from time to time. The Registry will notify Registrars in the event of updates. The AUP as posted on the Registry's website is the agreement in effect at any time.

Prohibited Use

A Prohibited Use of a domain name is a use that is either illegal or expressly prohibited by provisions of this AUP and/or Registry Policies. A non-exhaustive list of such restrictions pertaining

THE REGISTRANT'S SOLE REMEDY FOR AN ACTION NOT FLOWING FROM THIS AGREEMENT (IN TORT OR OTHERWISE) SHALL BE LIMITED TO THE AMOUNT OF MONEY PAID TO THE REGISTRY OR REGISTRY RELATED PARTIES BY THE REGISTRANT.

7. Modification of Network Data

Acceptable Use Policy

The Registry is committed to an open internet and to freedom of expression. However, in the course of its duties to comply with ICANN consensus policies, UDRP, or URS decisions, court or other governmental orders, or other duly-qualified law enforcement requests, or to protect the integrity and functioning of its networks, the Registry, in its sole discretion, reserves the right to:

- a. remove or alter content, Zone File data and/or other material from its servers that violates the provisions or requirements of this AUP;
- b. re-delegate, redirect or otherwise divert traffic intended for any service;
- c. notify operators of internet security monitoring services, virus scanning services and/or law enforcement authorities of any breach or apparent breach of this AUP or other Registry Policies; and/or

terminate access to the Registry's network by any person or entity that the Registry determines has violated the provisions or requirements of this AUP.

Registrant Agreement

Note: while Registrars may require Registrants to agree to certain Registrar-specific Terms & Conditions, subject to applicable law, the substance of the terms of this Registrant Agreement as set out below must be fully incorporated in any agreement entered into by and between a Registrar and Registrant for the registration and/or renewal of a domain name in this TLD. Registrars may only amend the terms and conditions set forth herein to the extent necessary to comply with local laws and other applicable conditions affecting this Agreement.

This Registrant Agreement (the “Agreement”) is entered into by and between the domain name Registrant (“Registrant”) and _____ (the “Registrar”) relating to domain name services including, but not limited to, the registration, renewal, transfer, or deletion of a domain name in the top-level domain (“TLD”) Registry (“the Registry”) listed on Schedule A.

This Registrant Agreement is part of the Registry Policies, which form a cohesive framework and must be read in conjunction with one another, as well as with other applicable agreements, policies, laws, and regulations which, taken together, represent the entirety the obligations and responsibilities with regard to any domain name registration.

Terms and Conditions

- 1) By applying to register or renew a domain name in this Registry (hereinafter referred to as an “Application”) or by registering one or more domain name(s), the Registrant hereby acknowledges that they have read and agree to be bound by all terms and conditions of this Agreement, as well as the other documents in the Registry Policies.

The most recent Registry Policies apply to any and all domain name applications, domain names, and domain name registrations in this Registry and explain the terms, conditions, rights, and obligations between the Registry, the Registrar, and the Registrant. Those parts of the Registry Policies that are not part of the text of this Agreement are incorporated into this Agreement by this reference.

The Registry may, in its sole discretion, modify the Registry Policies at any time and from time to time. The Registry shall post the current version of the Registry Policies on the Registry’s website. The Registry may inform Registrars of changes to the Registry Policies via email, and the Registrar may in turn notify the Registrant of any changes thereto; the Registrant agrees that such email shall not be considered spam; however, neither the Registry nor the Registrar shall not be obligated to provide such notice via email or otherwise.

The Registrant’s continued registration and/or use of a domain name following the date the most current version of the Registry Policies is posted to the Registry’s webpage, which shall be the effective date, constitutes the Registrant’s acceptance of such revised Registry Policies. In the event that the Registrant does not wish to be bound by the revised Registry Policies, the Registrant’s sole remedy is to cancel the registration of any domain name covered by the Registry Policies, by following the appropriate Registry and/or Registrar Policies regarding such cancellation.

- 2) Registration Fee. The Registrant shall pay to the ICANN-accredited Registrar the appropriate registration fee (“Registration Fee”) applicable at the time the Registrant submits its Application to such accredited Registrar. Payment of the Registration Fee shall be made in accordance with the requirements of the accredited Registrar, and the Registry Policies are effective at the time of submission of such application or at the time of payment, whichever is

Registrant Agreement

earlier. All Registration Fees paid pursuant to this Agreement are non-refundable except as provided for herein. It is the responsibility of the accredited Registrar to pay a separate registration fee to the Registry in connection with such domain name application, and the Registry is not bound to accept any application until such separate Registrar Registration Fee is paid. The Registry will not refund any Registration Fee or other fee to the Registrant in the event of non-performance by any such Registrar; the Registry disclaims any and all liability for any losses incurred as a result of any Registrar non-performance including where a third party may obtain registration of a domain name for which an Application has been submitted.

- 3) Term and Renewal Term. The Registrant's exclusive registration of the domain name shall continue for the term specified in the accepted application (the "Term"), subject to the Registry's and/or Registrar's right to suspend or terminate the domain name pursuant to this Agreement and the Registry Policies, which are incorporated herein by reference. Domain name Registrations may be made for an annual term of between one (1) and ten (10) years.
- 4) Registrant Information. The Registrant shall ensure that the information submitted by or on behalf of the Registrant to the Registrar in connection with registration of the domain name or otherwise ("Registrant Information"), will, throughout the Term, comply with the Registry Policies as may be in effect from time to time and will remain true, current, complete, accurate, and reliable. The Registrant shall maintain, update, and keep the Registrant Information true, current, complete, accurate, and reliable by immediately making such changes in their account at the Sponsoring Registrar. The Registry reserves and may exercise the right to suspend and/or terminate the Registrant's registration of the domain name if: (i) information provided by the Registrant to the Registrar and/or Registry appears, in the Registry's sole discretion, to be false, inaccurate, incomplete, unreliable, or misleading in any respect; or (ii) the Registrant fails to maintain, update, and/or keep the Registrant Information true, current, complete, accurate, and reliable. In such a circumstance, the Registry may, in its sole discretion, with the cooperation of the sponsoring Registrar, suspend the Registrant's domain name(s) upon the Registry's receipt of knowledge that such information is deficient. The Registrant acknowledges that a breach of this Section will constitute a material breach of this Agreement, which will entitle the Registry to terminate this Agreement, resulting in suspension and/or deletion of the domain name, immediately upon such breach without any refund of the Registration Fee and without any obligation of notice to the Registrant.
 - a. The Registrant acknowledges and agrees that all personal information about the Registrant that is supplied to the Registry and/or an accredited Registrar may be publicly available to third parties via a public "Whois" service, as required by ICANN and as allowed by applicable laws.
 - b. Registrants must provide all contact information as required by the ICANN-accredited Registrar. Providing true, current, complete, and accurate contact information is an absolute condition of registration of a domain name within this TLD. If any Registrant Information provided during registration or subsequent modification to that information is false, inaccurate, or misleading or conceals or omits pertinent information, the Registry may terminate, suspend, place on hold, or cancel the domain name registration of any Registrant without notification and without refund to the Registrant.
 - c. The Registrant is responsible for responding in a timely fashion to communications from a Registrar or the Registry regarding any domain name registered by or on behalf of the Registrant.

Registrant Agreement

- d. The Registry retains the irrevocable right, but expressly disclaims any obligation, in its sole discretion, to monitor and/or scan any content published or sent under a domain name registered in the Registry, including where such content involves an intrusion or causes modification of Registry or other data, providing such scanning is for the purpose of identifying internet security vulnerabilities or the presence of malicious software or content capable of causing harm or disruption to the systems of other internet users or the Registry, or content that is illegal. The Registry may delegate this right to its agents, representatives, successors, and assigns or choose not to exercise the right.
- 5) Registrant's Agents. The Registrant understands, acknowledges, and agrees that by using the domain name, the Registrant accepts the terms and conditions of and is bound by this Agreement (including the Registry Policies incorporated into this Agreement), even if an agent (such as an internet service provider, domain name retailer, domain name reseller, or employee) entered into this Agreement on the Registrant's behalf, and even if the Registrant has not itself read this Agreement and/or the Registry Policies. Further, the Registrant understands, acknowledges and agrees that it is responsible for all information submitted by its agent. The Registry may, but will not be bound to, cancel this Agreement due to any errors or omissions by the Registrant's agent in the registration process or thereafter (e.g., if such agent provides incorrect Registrant Information), as the agent's apparent authority will be deemed actual authority and will suffice to bind the Registrant. By acting on the Registrant's behalf, such agent represents and warrants to the Registry that the agent is authorized to bind the Registrant hereto and that it has fully and thoroughly advised the Registrant of the terms and conditions of this Agreement (including the Registry Policies incorporated into this Agreement).
- 6) Scope of Registration. On payment of the Registration Fee to the Registrar and after payment by the Registrar to the Registry of the separate Registrar registration fee, and after acceptance of the application, the Registrant will be entitled to a limited license for the exclusive use of the applied-for domain name which, in the event of sale, assignment, sublicense, or otherwise, the registration and use of the domain name shall at all times be subject to continuing compliance with the terms of this Agreement and the Registry Policies, for the duration of the Term. However, the Registrant may not sublicense, use, display, exploit, or register a domain name in any manner which, in the sole discretion of the Registry or its delegee, may constitute illegal activity or cause or permit any contravention or violation of the Registry Policies, whether or not in connection with the registered domain name. In the event of any assignment, sub-license or similar transaction, the Registrant remains responsible for complying with all terms and conditions of this Agreement, and accepts liability for any harm caused by such sub-licensor or third party's use of the domain name in contravention of this Agreement or the Registry Policies. The Registrant acknowledges that a breach of this Section by the Registrant and/or its agent, assignee, sub-licensor, or any other third party, will constitute a material breach of this Agreement, which will entitle the Registry to terminate this Agreement or take such other action as it deems necessary or desirable, without any refund of the Registration Fee, at the Registry's sole discretion. Further, in the event of such termination, the Registry or Registrar may, in such party's sole discretion, refuse registration of domain names by Registrant or discontinue services with respect to the Registrant's domain name or any other domain name which, in the sole discretion of the Registry or its delegee, it deems to be related, including but not limited to other domain names registered by the same Registrant and/or agent. In case of such refusal or discontinuation without cause ("cause" being defined as dishonouring any payment made to an accredited

Registrant Agreement

Registrar and/or the Registry or any violation of the Registry Policies), neither the Registry nor an accredited Registrar shall be liable for any loss, damage, or other injury whatsoever, including but not limited to economic or consequential loss and/or damages, resulting from the Registry's or the accredited Registrar's refusal to register, or decision to discontinue services for, the Registrant's domain name, including to the extent permitted by applicable law in cases of negligence.

- 7) Registrant Representations and Warranties. The Registrant represents, warrants, and covenants that:
- a. the Registrant understands that registration entitles the Registrant only to a limited license for the use of the domain name(s) for the Term, subject to compliance with this Agreement, the Registry Policies and other applicable rules and laws, including those concerning trademarks and other types of intellectual property rights, as these may now exist or be revised from time to time. Registrant agrees to be bound and abide by any ICANN Consensus Policies including, but not limited to, the Uniform Domain Name Dispute Resolution Policy ("UDRP") and Uniform Rapid Suspension ("URS"), as now in effect and as may be adopted and/or amended at any time and from time to time;
 - b. neither the registration of the domain name, nor the manner in which it is to be directly or indirectly used by the Registrant or otherwise, will or may infringe the legal rights or intellectual property rights of a third party;
 - c. the Registrant will use or display the domain name in accordance with the laws, rules, and regulations of any applicable national, state, territorial, or international or other laws, rules, and regulations, and ICANN Consensus Policies, and will not use the domain name in any way which violates or may violate a right of the Registry or any third party;
 - d. any violation of these Registry Policies may result in lock, suspension, or termination of the domain name in question or other domain names the Registrant may have registered in the TLD, in the Registry's sole discretion;
 - e. the application and registration information provided by the Registrant is true, complete and accurate, and the Registrant will update said information in a timely manner if it changes;
 - f. the Registrant is either: (a) an identifiable human individual over the 18 years of age or otherwise recognized as being able to enter into a legally-binding contract under applicable law; or, (b) a properly described and legally-recognized entity within its national jurisdiction, e.g., corporation, limited liability company, partnership, association, society, or proprietary limited company for which the Registrant has legally binding authority to enter into this Agreement and the Registry Policies;
 - g. the Registrant will not, directly or indirectly, through registration or use of the domain name or otherwise:
 - i. register a domain name for the purpose of unlawfully diverting trade from another business or website;
 - ii. deliberately register as a domain name misspellings of another person or entity's personal, company or brand name(s) or confusingly similar domain name(s) in order

Registrant Agreement

to pass-off or trade on the business, goodwill or reputation of another, or otherwise infringe upon a third party's intellectual property rights;

- iii. grant or purport to grant a security interest or other encumbrance on or over the domain name unless: such security interest or other encumbrance does not exceed the rights of the Registrant in the domain name as limited by this Agreement, does not impair the Registrant's ability to fulfil the Registrant's obligations under this Agreement, and does not impose or purport to impose obligations on the Registry beyond the obligations owed by the Registry to the Registrant in the absence of such a security interest or encumbrance;
 - h. the Registrant meets, and will continue to meet for the whole of the Term, any and all eligibility criteria prescribed in the Registry Policies for registering and using the domain name;
 - i. the Registrant will maintain the Registrant Information provided pursuant to the requirements of this Agreement;
 - j. the Registrant has not previously submitted an Application for registration of a domain name for the same character string where:
 - i. the Registrant is relying on the same eligibility criteria for both domain name Applications; and
 - ii. the domain name application has previously been rejected;
 - k. any content, material, email, or webpage, contained on any Uniform Resource Locator ("URL"), website, or webpage accessing, utilizing, or accessed by means of the domain name, complies with the Acceptable Use Policy, whether incorporated directly into, forwarded, or framed by means of the domain name or otherwise;
 - l. the Registrant has not relied upon any representation or promise which does not appear in this Agreement;
 - m. the Registrant's use of the domain name and of any webpage, email, or URL accessed by or utilizing the domain name will comply with the requirements of the Acceptable Use Policy.
 - n. if the Registrant has registered a Boston Community Domain, that the Registrant meets the requirements to register a Boston Community Domain as set forth in these Registry Policies, and that all information provided regarding such the Registrant concerning such registration are true and complete.
 - o. the Registrant understands and agrees that the application for and registration of Boston Community Domains are to be made with the Boston Community Registrar.
- 8) Breach and Cure. Failure of a Registrant to abide by any provision of this Agreement and all other Registry Policies will be considered a material breach. In the event of such material breach, the Registry may in its sole discretion, with the cooperation of the sponsoring

Registrant Agreement

Registrar, suspend, lock, modify, or transfer the domain name and/or may provide written (which may be by email) notice to the Registrant describing the material breach. In any event, where the Registry gives notice, by way of the accredited Registrar, to the Registrant, that there is a breach, the Registrant shall rectify, cure, or refute within thirty (30) days. In the event a breach is not rectified, cured, or refuted by the Registrant to Registry's sole satisfaction within the thirty (30) day period, the Registry may cancel or otherwise modify the Registrant's registration of and license to use the domain name without refund and without further notice, and pursue any and all legal remedies it may have against the Registrant. Any such breach by the Registrant shall not be waived in the event that the Registry did not act earlier in response to the specific breach, or any other breach, by Registrant. In the event of a breach which, in the sole discretion of the Registry or the sponsoring Registrar, causes or is likely to cause immediate harm to the public interest or the Registry, or which violates or is likely to violate any applicable law or regulation, then an accredited Registrar and/or the Registry may, with the cooperation of the sponsoring Registrar, modify, suspend, transfer, or terminate services to the Registrant without written notice; the modification, suspension, transfer, or termination of services constituting notice to Registrant that such a breach has occurred. See below for important limitations on the liability of the Registry and accredited Registrars with regard to acts by such parties under this Section.

The Registry may delegate authority to:

- a) investigate any breach or potential breach of the Registry Policies; and
- b) take action to cure or sanction any breach or potential breach of the Registry Policies, including the authority to immediately suspend or transfer use of a domain name upon detection by a service provider or notification, e.g., from an internet security agency, that the domain name may contain malicious software or otherwise violates the Acceptable Use Policy.

In such circumstances, neither the Registry, the sponsoring Registrar, nor their respective employees, directors, officers, affiliates, representatives, delegees, shareholders, agents, successors, and/or assigns nor any external service provider or internet security agency triggering the suspension or transfer shall be liable to the Registrant or any other person on account of any service disruption or loss, irrespective of the nature of that loss.

- 9) Disputes Between Registrants. The Registrant acknowledges that the Registry cannot, and does not, screen or otherwise review any Application to verify that the Registrant has the legal right to use a particular character string as or in a domain name, or that the Registrant will not infringe the rights of a third party. In the event that any third party disputes the Registrant's legal right to use, display, exploit, or register the domain name in any fashion, including allegations that infringing material (as defined in the Acceptable Use Policy) is displayed on or forwarded, including via the use of frames, to a website that is resolved via the domain name or that the registration or use of the domain name itself infringes the third party's rights, the Registrant shall act in accordance with and agree to be bound by the ICANN-mandated URS, UDRP, and applicable ICANN Consensus Policies. The Registrant will be solely liable in the event that the Registrant's use of the domain name constitutes an infringement or other violation of a third party's rights.
- 10) Indemnity. The Registrant shall indemnify and hold harmless the Registry, Registrar, the City of Boston, and such parties' officers, directors, shareholders, members, owners, managers,

Registrant Agreement

employees, agents, elected officials, representatives, contractors, affiliates, successors, assigns, and attorneys (the "Registry Related Parties") from and against any and all claims made by third parties against the Registrant or Registry Related Parties, including, but not limited to, all loss, liability, claims, demands, damages, cost or expense, causes of action, suits, proceedings, judgments, awards, executions and liens, including lawyers or attorneys' fees, which fees shall be determined on a full indemnity basis (which lawyers or attorneys shall be hired at the sole discretion of the indemnified party), and costs (including claims without legal merit or brought in bad faith), relating to or arising under this Agreement, the registration or use of domain name registration or other services, or the domain name itself, including the Registrant's use, display, exploitation, or registration of the domain name, as well as for any infringing or otherwise damaging content displayed or otherwise made available on or by means of the domain name. If an indemnified party is threatened by claims or suit of a third party, the indemnified party may seek written assurances from the Registrant concerning the Registrant's indemnification obligations but will not be required to do so in order to rely upon this indemnity. Failure to provide such written assurances in a form satisfactory to the indemnified party is a material breach of this Agreement. Failure of the Registrant to fully indemnify the indemnified party in a timely manner may result in termination, suspension, transfer, or modification of the domain name registration services and any such termination, suspension, transfer, or modification shall in no way prejudice or substitute for an indemnified party's right to seek indemnification by way of litigation or otherwise.

11) DISCLAIMER AND LIMITATION OF LIABILITY. THE REGISTRANT ACKNOWLEDGES AND AGREES THAT, TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE REGISTRY AND THE REGISTRY RELATED PARTIES SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF PROGRAMS OR OTHER DATA, OR OTHERWISE RELATING TO THE USE, SUSPENSION, TERMINATION OR THE INABILITY TO USE THE DOMAIN NAME OR IN ANY OTHER WAY RELATED TO THE DOMAIN NAME, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT (INCLUDING IN THE CASE OF NEGLIGENCE BY THE REGISTRY AND/OR REGISTRY RELATED PARTIES), OR OTHERWISE. THE REGISTRY'S LIABILITY FOR ANY BREACH OF A CONDITION OR WARRANTY IMPLIED BY ANY OF THE REGISTRY POLICIES, INCLUDING THE NAMING POLICY, ACCEPTABLE USE POLICY, REGISTRANT AGREEMENT, PRIVACY & WHOIS POLICY, AND/OR THE REGISTRY-REGISTRAR AGREEMENT SHALL BE LIMITED TO THE MAXIMUM EXTENT POSSIBLE TO ONE OF THE FOLLOWING (AS THE REGISTRY MAY DETERMINE IN ITS SOLE DISCRETION:

- A. SUPPLYING THE DOMAIN NAME AGAIN; OR
- B. PAYING THE REASONABLE COST INCURRED OF HAVING THE SERVICES SUPPLIED AGAIN.

ADDITIONALLY, TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE REGISTRY AND THE REGISTRY RELATED PARTIES SHALL NOT BE LIABLE FOR ANY LOSSES OR DAMAGES THAT THE REGISTRANT MAY INCUR AS A RESULT OF UNAUTHORIZED USE OF THE DOMAIN ARISING FROM "HACKING," DENIAL OF SERVICE ATTACK, VIRUS, WORM, OR OTHERWISE, OR FOR LACK OF FITNESS FOR A PARTICULAR PURPOSE OF THE DOMAIN NAME OR SERVICES RELATED TO THE DOMAIN NAME.

Registrant Agreement

IN THE EVENT THAT THE REGISTRY OR A REGISTRY RELATED PARTY TAKES ACTION WITH RESPECT TO A REGISTRY DOMAIN NAME PURSUANT TO THE REGISTRY POLICIES, WHICH ACTION IS REVERSED, MODIFIED, OR ACKNOWLEDGED TO HAVE BEEN INCORRECT BY THE REGISTRY AND/OR A REGISTRY RELATED PARTY OR BY A COURT, THEN REGISTRANT AGREES THAT, TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE REGISTRY AND/OR REGISTRY RELATED PARTIES SHALL NOT BE LIABLE FOR ANY DAMAGES THAT THE REGISTRANT MAY SUFFER THEREBY, EVEN IF THE REGISTRY AND/OR REGISTRY RELATED PARTIES HAVE BEEN ADVISED OF THE POTENTIAL FOR SUCH DAMAGES, AND EVEN IF THE REGISTRY AND/OR REGISTRY RELATED PARTIES MAY FORESEE SUCH POSSIBLE DAMAGES. THE REGISTRANT'S SOLE REMEDY UNDER SUCH CIRCUMSTANCES SHALL BE THE RESUPPLY OF THE DOMAIN NAME OR, AT THE SOLE DISCRETION OF THE REGISTRY, A REFUND OF THE REGISTRATION FEE, RENEWAL FEE (IF THE CIRCUMSTANCE OCCURRED DURING A RENEWAL TERM) OR REDEMPTION FEE, WHICH REMEDY THE REGISTRANT AGREES CONSTITUTES THE ONLY POSSIBLE DIRECT DAMAGES FLOWING FROM THIS AGREEMENT.

IN ADDITION, THE REGISTRY AND/OR REGISTRY RELATED PARTIES ARE, TO THE MAXIMUM EXTENT PERMITTED BY LAW, NOT LIABLE FOR ANY DAMAGES THAT THE REGISTRANT MAY SUFFER BECAUSE OF SERVICE OR SYSTEM FAILURE, INCLUDING DOMAIN NAME SYSTEM FAILURE, ROOT SERVER FAILURE, TELECOMMUNICATION FAILURE, INTERNET PROTOCOL ADDRESS FAILURE, ACCESS DELAYS OR INTERRUPTIONS, DATA NON-DELIVERY OR MIS-DELIVERY, ACTS OF GOD, UNAUTHORIZED USE OF PASSWORDS, ERRORS, OMISSIONS OR MIS-STATEMENTS IN ANY INFORMATION OR OTHER SERVICES PROVIDED UNDER THIS AGREEMENT, DELAYS OR INTERRUPTIONS IN DEVELOPMENT OF WEB SITES, RE-DELEGATION OF THE REGISTRY TOP-LEVEL DOMAIN NAME, OR BREACH OF SECURITY, EVEN IF THE REGISTRY AND/OR REGISTRY RELATED PARTIES HAVE BEEN ADVISED OF THE POTENTIAL FOR SUCH DAMAGES, AND EVEN IF THE REGISTRY OR REGISTRY RELATED PARTIES MAY FORESEE SUCH POSSIBLE DAMAGES. THE REGISTRANT'S SOLE REMEDY FOR THE REGISTRY OR REGISTRY RELATED PARTIES' BREACH OF THIS AGREEMENT OR NEGLIGENCE OF ANY TIME SHALL BE, AT THE SOLE DISCRETION OF THE REGISTRY OR THE REGISTRY RELATED PARTIES, THE RESUPPLY OF THE DOMAIN NAME OR A REFUND OF THE REGISTRATION FEE, REDEMPTION FEE OR RENEWAL FEE (IF THE BREACH OCCURS DURING A RENEWAL TERM), WHICH REMEDY THE REGISTRANT AGREES CONSTITUTES THE ONLY POSSIBLE DIRECT DAMAGES FLOWING FROM THIS AGREEMENT. THE REGISTRANT'S SOLE REMEDY FOR AN ACTION NOT FLOWING FROM THIS AGREEMENT (IN TORT OR OTHERWISE) SHALL BE LIMITED TO THE AMOUNT OF MONEY PAID TO THE REGISTRY OR REGISTRY RELATED PARTIES BY THE REGISTRANT.

- 13) Governing Law/Forum Selection. For all disputes in which the Registry may be or is a party, this Registrant Agreement shall be exclusively governed by and construed in accordance with the laws of the Commonwealth of Massachusetts and applicable to contracts made and wholly performed therein, without regard to conflict of laws principles. The Registrant hereby irrevocably consents to the exclusive jurisdiction of the Courts of the Commonwealth of Massachusetts, for any and all claims or disputes directed against the Registry and which arise out of, purport to enforce, construe, or otherwise relate to the domain name, this Agreement, or Registry Policies. The exclusive venue for such action shall be the Courts of the Commonwealth of Massachusetts. The Registrant waives any right to object to venue or jurisdiction based on inconvenient forum or for any other reason, and the Registrant waives any statutory or other right pursuant to the laws of the jurisdiction in which Registrant resides to have a case relating to this Agreement adjudicated or resolved in that jurisdiction. By way of information and not as a term binding against the Registry, disputes not involving the Registry as a party may be governed by a governing law and/or forum selection clause contained in a separate agreement, if any, between the Registrant and such other disputant (for example, disputes between an accredited Registrar and a Registrant may be governed by a separate agreement, if any, between the Registrant and the sponsoring Registrar); provided, however, that no such separate agreement may modify or waive either the Registry's or Registrant's consent to exclusive choice of law, jurisdiction, and venue in the Commonwealth of Massachusetts for disputes in which the Registry is or may be a party, as described above.
- 14) Ownership of Information and Data. Subject to any limitations of the privacy laws of the Commonwealth of Massachusetts and the United States, Registrant agrees and acknowledges that the Registry and/or any Registry delegee shall own all database, compilation, collective, and similar rights, title, and interests worldwide in any domain name database(s) and all information and derivative works generated from the domain name database(s), and that such domain name database may include, without limitation, any information supplied by Registrant or by the Registry that appears or should appear in the Whois or similar information repositories, and any other information generated or obtained in connection with providing domain name registration services.
- 15) 2-Character Domains Corresponding to Country Codes. For such domain names registered that correspond to current or future country code top-level domains, Registrant agrees that Registry may take such steps as are, in its sole and absolute discretion, necessary to ensure against misrepresenting or falsely implying that the Registrant or its business is affiliated with

Registrant Agreement

a government or country-code manager if such affiliation, sponsorship, or endorsement does not exist.

- 16) Domains Corresponding to Government Purposes. Registrant agrees that Registry may take such steps as are, in its sole and absolute discretion, necessary to ensure against misrepresenting or falsely implying that the Registrant or its business is affiliated with, or sponsored or endorsed by a City of Boston department or commission, a City of Boston facility, an official City of Boston sponsored event, or carrying out any functions, duties, or services provided by the City of Boston to its residents, if, in the sole and absolute discretion of Registry, such affiliation, sponsorship, or endorsement does not exist.
- 17) Severability. If any provision of this Agreement or the Registry Policies is held invalid, unenforceable, or void, the remainder of the Agreement or the Registry Policies, as applicable, shall not be affected thereby and shall continue in full force and effect as nearly as possible to reflect the original intention of the Registrar, Registry, and Registrant in executing this Agreement.
- 18) No Waiver. The failure of either party at any time to enforce any right or remedy available to it under this Agreement with respect to any breach or failure by the other party shall not be a waiver of such right or remedy with respect to any other breach or failure by the other party.
- 19) Full Integration. This Agreement, as it may be modified at any time and from time to time as provided for herein, together with the Registry Policies, as they may be modified at any time and from time to time, expressly incorporated herein by reference, constitutes the entire agreement between the Registrant and Registrar for the benefit of the Registry relating to the domain name. No prior or contemporaneous written, oral, and/or electronic representation, negotiation, or agreement form a part of this Agreement, and this Agreement supersedes all prior written, oral, or electronic agreements between the Registrant and the Registry relating to the domain name. Additional agreements, if any, may be entered into between the Registrant and Registrar relating to domain name services provided by such Registrar, provided that no such additional agreement may waive, alter, or supersede any provision of this Agreement, neither may such an additional agreement impose any obligation upon the Registry without the Registry's express prior written consent. If there is any conflict between such additional agreements and this Agreement, this Agreement shall prevail.
- 20) Written Agreement. This Agreement constitutes a written agreement between the Registrant and Registrar for the benefit of the Registry even though the Registrant's Application may be dispatched electronically, and even though the Registry may accept the Application electronically. A printed version of this Agreement, and of any notice given in electronic form related to this Agreement, shall be admissible in judicial or administrative proceedings to the same extent, and subject to the same restrictions, as other business contracts, documents, or records originally generated and maintained in printed form.
- 21) Assignment. The parties agree that the Registry may assign, sub-assign, transfer, sell, license, or sub-license its rights and obligations under this Agreement or any portion thereof to a third party without prior written notice to the Registrant.
- 22) Survival of Obligations. The parties agree that clauses 6 (Scope of Registration), 7 (Registrant Representations and Warranties), 8 (Breach and Cure), 9 (Disputes Between Registrants), 10 (Indemnity), 11 (DISCLAIMER AND LIMITATION OF LIABILITY), 12 (Notices), 13

Registrant Agreement

(Governing Law/Forum Selection), 14 (Ownership of Information and Data), and 16 (Severability) shall survive the expiry or termination of this Agreement.

23) Headings: The headings of sections contained in this Agreement are inserted solely for convenience and ease of reference only and shall not constitute any part of this agreement, or have any effect on its interpretation or construction

24) Third Party Beneficiary. The Registry is an intended third-party beneficiary of this Agreement with rights to enforce its terms. The Registrant agrees to cooperate with the Registry or Registrar in Agreement compliance-related matters.

THIS AGREEMENT IS AND THE REGISTRY POLICIES ARE EFFECTIVE AND BINDING AS OF THE TIME OF SUBMISSION, BY THE REGISTRANT, AN APPLICATION FOR A DOMAIN NAME OR AT THE TIME OF PAYMENT, WHICHEVER IS EARLIER.

Privacy & Whois Policy

1. Preamble

This Privacy & Whois Policy is part of the Registry Policies, which form a cohesive framework and must be read in conjunction with one another, as well as with other applicable agreements, policies, laws, and regulations which, taken together, represent the entirety the obligations and responsibilities with regard to any domain name registration.

2. Objectives

The objectives of this Privacy & Whois Policy are:

- a. To disclose to the Registrant, and in doing so obtain the Registrant's consent to, the fact that certain Personal Information provided by the Registrant may be dealt with in the following manner by the Registry:
 - i. Personal Information shall be collected and may be used, maintained, and/or corrected from time to time in accordance with this and/or other Registry Policies or practices;
 - ii. Personal Information shall be collected by the Registry through the Registrar for the purpose of the storage, maintenance, disclosure, and/or use of such Personal Information. The Registry may disclose or transfer such Personal Information to any third party (in addition to ICANN and the Registry Escrow Agent), under the circumstances detailed in the "Use and Disclosure" section of this Privacy & Whois Policy;
 - iii. All Personal Information about the Registrant that is supplied to the Registry, or a Registrar, may be available to third parties by way of a public "Whois" service, consistent with:
 - 1) Privacy principals of the Registry;
 - 2) The Registry Policies;
 - 3) ICANN Consensus Policies; and/or
 - 4) Applicable laws, rules and regulations.
- b. To outline the Registry's procedures for the appropriate collection, holding, use, correction, disclosure, and transfer of a Registrant's Personal Information by the Registry.

In order to provide Registry services in any TLD, the Registry is required by ICANN to collect and publish data pertaining to the identity of the Registrant of any domain name.

3. Definitions

In addition to definitions found in the Registry Policies "Policy Overview and Definitions" document, the following terms are used in this Privacy & Whois Policy as defined below.

Privacy & Whois Policy

- a. “Escrow Agent” means a third party contracted to perform data escrow services for the Registry. The data escrow agreement with the Escrow Agent ensures the transfer of all relevant DNS data and Registrant information, including Personal Information, to ICANN and an ICANN-mandated back-up registry operator (“EBERO” or Emergency Back End Registry Operator), and will ensure the safety and integrity of the Registry’s TLD database. The Escrow Agent is prohibited from use or disclosure of the Registry’s TLD data unless that use or disclosure is deemed essential to ensure the stability and integrity of the Registry’s TLD.
- b. “Personal Information” means information about an individual person, including any Registrant, whose identity can reasonably be ascertained from such information, but does not include indexes or aggregations of Personal Information relating to more than one person, such as logfiles, DNS Zone Files, databases or backups. This information may include the name, address, telephone number, and email address of the Registrant. This may include the home address and personal email of the Registrant, if the Registrant uses those as their primary contact information for the domain name.
- c. The “Primary Purpose” of the collection of Personal Information is the storage and maintenance of such information in the Whois database (a copy of which ICANN requires is provided to the Escrow Agent) as required by ICANN, that is searchable and publicly available. No domain name can be registered without the Registry collecting such Personal Information and making it publicly available in the Whois database.

4. “Whois” Server Implications

The Registry will maintain a publicly accessible information service known as the Registry’s “Whois” service, which service provides the following information pertaining to a domain name, pursuant to ICANN’s Consensus Policies, which may be amended at any time and from time to time:

- a. Technical information on the DNS servers resolving a domain name;
- b. The date the domain name was inserted into the Registry’s database;
- c. The date of last modification;
- d. The date of expiration;
- e. The current status of the domain name;
- f. The Registrar’s contact details;
- g. The Registrant’s name;
- h. The Registrant’s physical address and/or alternate address;
- i. The Registrant’s email and phone numbers and/or alternate address;
- j. The Registrant’s state and/or alternate address;
- k. The Registrant’s country and/or alternate address.

Privacy & Whois Policy

- I. Details of nominated administrative, technical and billing contacts.

It is not possible to entirely block third party access to Registrant Personal Information; it may however, be possible for Registrants to use the services of a third party to display “private” or “proxy” information in the publicly-available Whois. Even in such case however, Registrant Personal Information is normally accessible by the Registry, and merely by way of example, to certain law enforcement agencies and others as allowed under applicable law.

5. Collection

- a. The Registry collects Personal Information for one or more of its functions and/or activities including, where required:
 - i. to identify and maintain contact details of domain name Registrants and their duly appointed agents;
 - ii. to provide access to that data to the public and persons connected with Registrants;
 - iii. to provide services to Registrants and maintain its database;
 - iv. for the provision of Whois service;
 - v. to contact the Registrant, including notifications in accordance with the Registry Policies; and/or,
 - vi. to provide law enforcement, government agencies, and relevant internet security organisations with information required to investigate or prevent an alleged crime.
- b. The Registry’s website utilizes technology that collects user information and tracks usage (e.g., via “cookies”). The Registry’s website may feature links to other third party websites but the Registry is not responsible for the content and privacy practices of any such third party websites.

6. Use and Disclosure

- a. The Registry may use or disclose Personal Information about a Registrant for a purpose other than the Primary Purpose of collection where:
 - i. The Personal Information consists of the contact details of a person connected to a Registrar, internet service provider, internet service reseller, or persons connected thereto, such as directors, managers or other points of contact;
 - ii. The Registrant has consented to such use or disclosure; or
 - iii. The Registry believes in its sole judgment that the use or disclosure is necessary:
 - 1) To lessen or prevent a serious and imminent threat to an individual’s life, health, or safety; or

Privacy & Whois Policy

- 2) To lessen or prevent a serious threat to public health or public safety; or
 - 3) Because the Registry has reason to suspect that unlawful activity or a violation of the any of the Registry's Policies has been, is being, or may be engaged in, and uses or discloses the Personal Information as a necessary part of its investigation of the matter or in reporting its concerns to relevant persons (including parties affected by that violation) or authorities; or
 - 4) Because the use or disclosure is required or authorized by or under law, rule or regulation; or
 - 5) Because the Registry believes that the use or disclosure is necessary for one or more of the following, by or on behalf of an enforcement body:
 - a) The prevention, detection, investigation, prosecution, or punishment of criminal offences, breaches of a law imposing a penalty or sanction, or breaches of a prescribed law;
 - b) The preparation for, or conduct of, proceedings before any court or tribunal, or implementation of the orders of a court or tribunal; or
 - 6) As ordered by a dispute resolution provider in connection with a Uniform Domain Name Dispute Resolution Policy (UDRP) or Universal Rapid Suspension (URS) proceeding, as mandated by ICANN.
 - 7) For any other legal purpose.
- b. Nothing in this Section 5 “Use and Disclosure” requires the Registry to disclose any Personal Information; the Registry is always entitled not to disclose Personal Information in the absence of a legal obligation to disclose it.
- c. The Registry may also be subject to the requirements of present, and any future, policy dealing with cross-border data flows if it transfers Personal Information to a person or entity in a foreign country situated outside of the European Economic Association (EEA).
- d. The Registry maintains and uses servers in diverse locations internationally, necessitating transfer of data, including Personal Information, between servers and data networks.

7. Data Quality

- a. The Registry may—but is not obligated to—take steps to make sure that the Personal Information it collects, uses or discloses is accurate, complete, and up-to-date. This may include active email, SMS, or phone communication from the Registry to the Registrant that bypasses the sponsoring Registrar.

8. Data Security

- a. The Registry shall take the steps required by ICANN, the laws of the Commonwealth of Massachusetts, and the United States to protect the Personal Information it holds from

Privacy & Whois Policy

misuse and loss and from unauthorized access, modification, or disclosure to the extent required by law.

9. Openness

- a. This Privacy & Whois Policy sets out the Registry's policies concerning its management of Personal Information. The Registry shall make this document available to anyone who asks for it and on its website.

10. Access and Correction

- a. If the Registry holds Personal Information about a Registrant, it shall provide that Registrant with access to such information upon receipt of written request by the Registrant, except to the extent that the Registry believes in its sole discretion:
 - i. In the case of Personal Information, providing access may pose a serious and imminent threat to the life or health of any individual; or
 - ii. Providing access may have an unreasonable impact upon the privacy of other individuals; or
 - iii. The request for access is frivolous or vexatious; or
 - iv. The information relates to existing or anticipated legal proceedings and the information would not be accessible by the process of discovery in those proceedings; or
 - v. Providing access may be unlawful; or
 - vi. Denying access may be required or authorized by or under law, rule or regulation, including, but not limited to, the order of any court having appropriate jurisdiction; or
 - vii. Providing access may prejudice an investigation of possibly unlawful activity; or
 - viii. Providing access may prejudice:
 - 1) The prevention, detection, investigation, prosecution or punishment of criminal offences, or other breaches of law; or
 - 2) The preparation for, or conduct of, proceedings before any court or tribunal, or implementation of its orders; or
 - 3) A law enforcement body or relevant internet security organisation performing a lawful security function requests that the Registry not provide access to the information on the basis that providing access would be likely to cause harm.
- b. The Registry shall not in any event be under any obligation to disclose DNS Zone Files, payment logs, email archives, or data backups to any party, except as required by ICANN, law, or court order.

Privacy & Whois Policy

- c. Where providing access would reveal evaluative information generated within the Registry in connection with a commercially sensitive decision-making process, the Registry may give the Registrant an explanation for the commercially sensitive decision rather than access to the information.
- d. If the Registry holds Personal Information about a Registrant and the Registrant is able to establish that the information is not accurate, complete, and up-to-date, upon notice of such fact from the Registrant, the Registry shall take reasonable steps to correct the information so that it is accurate, complete, and up-to-date as requested by the Registrant, except where the data is contained in an historical record or archive.

11. Review of Policy

The Registry reserves the right to review or revise this Privacy & Whois Policy at its sole discretion at any time and from time to time, including to maintain compliance with ICANN Consensus Policy or other applicable law or regulation; Registrants who have provided their Personal Information to the Registry are deemed to acknowledge and be bound by this Privacy & Whois Policy and any changes made to it.

The current version of the Privacy & Whois Policy will be made available on the Registry website. It applies to any domain name registered in the TLD, no matter when or how registered, renewed, or transferred. Where a Registrant licenses or leases the domain name or any sub-domain names obtained under these Registry Policies, the Registry and the sponsoring Registrar shall hold the Registrant solely liable for activity in the domain name and in any sub-domain, if applicable.

Registry – Registrar Agreement

This Registry-Registrar Agreement (the “Agreement”) is dated as of the date signed (“Effective Date”) by and between Boston TLD Management LLC, or its successor registry (the “Registry”), and the Registrar (“Registrar”). The Registrar may be referred to individually as a “Party” and collectively as the “Parties.”

This Registry-Registrar Agreement is part of the Registry Policies, the policies adapted and revised or amended from time to time by the Registry as posted on the Registry Website, which form a cohesive framework and must be read in conjunction with one another, including the Overview and Definitions, Naming Policy, Acceptable Use Policy, Registrant Agreement, and the Privacy & Whois Policy. These documents, which include by reference applicable agreements, policies, laws, and regulations, represent the entirety of the obligations and responsibilities with regard to any domain name registration, application, or attempt to register or apply.

WHEREAS, multiple Registrars may provide internet domain name registration services for this TLD for which the Registry operates and maintains a multiple registrar Shared Registry System (SRS);

WHEREAS, the Registrar wishes to register domain names in the SRS for this TLD.

NOW, THEREFORE, for and in consideration of the mutual promises, benefits and covenants contained herein and for other good and valuable consideration, the receipt, adequacy, and sufficiency of which are hereby acknowledged, the Registry and the Registrar, intending to be legally bound, hereby agree as follows:

1. Definitions

In addition to the definitions found in the Registry Policies, the following terms are used in this Registry–Registrar Agreement have the following meaning;

- a. “Confidential Information” means all information and materials including, without limitation: computer software, data, information, databases, protocols, reference implementation and documentation, and functional and interface specifications, provided by the disclosing party to the receiving party unless otherwise marked or identified as non-confidential.
- b. “Inter-Registrar Transfer Policy” refers to ICANN’s Inter-Registrar Transfer Policy, as may be amended from time to time, and is incorporated by reference herein.
- c. The “Licensed Product” refers to the intellectual property required to access the Supported Protocol, and to the application programming interface (API), and software, collectively.
- d. “Registered Name” refers to a domain name within the domain of the TLD, for which the Registry maintains data in a registry database, arranges for such maintenance, or derives revenue from such maintenance. A name in a registry database may be a Registered Name even though it may not appear in a TLD zone file (e.g., a registered but inactive name).
- e. “Supported Protocol” means the Registry’s implementation of EPP, or any successor protocols, supported by the SRS.

Registry – Registrar Agreement

2. Obligations of the Parties

- a. SRS Operation and Access. Throughout the Term of this Agreement, the Registry shall operate the SRS and provide the Registrar with access to the SRS to transmit domain name registration information for the .boston TLD to the SRS. Nothing in this Agreement entitles the Registrar to, and the Registrar has no right to, enforce any agreement between the Registry and ICANN.
- b. Maintenance of Registrations Sponsored by the Registrar. Subject to the provisions of this Agreement, ICANN requirements, and Registry requirements including, without limitation, those authorized by ICANN, each as may be amended from time to time, the Registry shall maintain the registrations of Registered Names sponsored by the Registrar in the system during the term of the domain name registration.
- c. Access to the SRS. Subject to the Registrar's successful completion of testing required by the Registry, the Registry will provide full access to the SRS for the .boston TLD. The Registry shall make available to the Registrar: (i) an operational testing environment where Registrars may test the SRS; (ii) following the Registry's certification, at its sole discretion, that the Registrar has successfully completed the testing required by the Registry, the Registry will provide full documentation of the Supported Protocol, APIs to the Supported Protocol with documentation, and Registrar toolkits that will allow the Registrar to connect via EPP to the SRS to register second-level domain names through the SRS for the .boston TLD. If the Registry elects to modify or upgrade the APIs and/or Supported Protocol, the Registry shall provide updated APIs to the Supported Protocol with documentation to the Registrar promptly as such updates become available. The Registry will provide 90 days' notice to Registrar to implement the API and/or Supported Protocol updates and changes, except for routine configuration, maintenance, and software and hardware updates in the normal course of business, or for disaster recovery or other measures necessary to protect the security and stability of the registry, or in circumstances where a regulatory body (e.g. ICANN) or law enforcement mandates registry operators to meet shorter deadlines, in which case the Registrar will work with the Registry to agree on an appropriate date to implement such changes.
- d. Registrar Responsibility for Customer Support. The Registrar shall provide Registrants with customer service and support for the registration, cancellation, modification, renewal, deletion, or transfer of Registered Names, domain name record support, billing, and technical support. The Registrar shall, consistent with ICANN policies, provide to Registrants emergency contact or 24/7 support information for critical situations such as domain name hijacking.
- e. Data Submission Requirements. As part of its registration and sponsorship of Registered Names in the TLD(s), the Registrar shall submit complete data as required by the technical specifications of the SRS that are made available to the Registrar from time to time. The

Registry – Registrar Agreement

Registrar shall submit any corrections or updates from a Registrant relating to the registration information for a Registered Name to the Registry in a timely manner.

- f. License. The Registrar grants the Registry a non-exclusive, royalty-free, non-transferable, worldwide limited license to the data elements consisting of the Registered Name, the IP addresses of nameservers, the identity of the registering Registrar, and other data required or permitted by the technical specifications of the SRS, as made available to the Registrar by the Registry from time to time or as required by ICANN for propagation and the provision of authorized access to the TLD zone files, or as otherwise required or permitted by a Registry's Registry Agreement with ICANN concerning the operation of the TLD, as may be amended from time to time.
- g. Registrar's Registration Agreement and Domain Name Dispute Policy. The Registrar shall have in effect an electronic or paper registration agreement with each Registrant, which may be amended from time to time by the Registrar, which shall at all times include, subject to applicable law, the terms of the Registrant Agreement and Registry Policies included above, especially with regard to those terms that are required by ICANN. The Registrar shall provide the Registry with a copy of the Registrar's registration agreement upon request. The Registrar shall include in its registration agreement those terms required by this Agreement and other terms that are consistent with the Registrar's obligations to the Registry under this Agreement. The Registrar shall employ in its domain name registration agreement a requirement for registrants to submit to the Uniform Domain Name Dispute Resolution Policy (UDRP), Uniform Rapid Suspension (URS), and the Inter-Registrar Transfer Policy, each in their most recent form and each as may be amended from time to time. In its registration agreement with each Registrant, the Registrar shall require such Registrant to:
 - i. acknowledge and agree that the Registry reserves the right to deny, cancel, or transfer any registration or transaction, or place any domain name(s) on registry lock, hold, or similar status as it deems necessary, in its unlimited and sole discretion: (1) to comply with specifications adopted by any industry group generally recognized as authoritative with respect to the internet (e.g., RFCs); (2) to correct mistakes made by the Registry or any Registrar in connection with a domain name registration; (3) if required by a URS, UDRP, or court proceeding; or (4) for the non-payment of fees to the Registry; and
 - ii. indemnify and hold harmless the Registry and its subcontractors, and its and their employees, directors, officers, representatives, delegees, shareholders, affiliates, agents, successors, and/or assigns from and against any and all claims, damages, liabilities, costs, and expenses, including reasonable legal fees and expenses arising out of or relating to, for any reason whatsoever, the Registrant's domain name registration. The Registrar's registration agreement shall further require that this indemnification obligation survive the termination or expiration of the registration agreement
- h. URS High-Level Technical Requirements. In addition to any other requirement under the URS, the Registrar must accept and process payments for the renewal of a domain name by a URS Complainant in cases where the URS Complainant prevailed and the Registrar must not renew a domain name to a URS Complainant who prevailed for longer than one year (if allowed by the maximum validity period of the TLD).

Registry – Registrar Agreement

- i. Secure Connection. The Registrar agrees to develop and employ in its domain name registration business all necessary technology, procedures, processes, and restrictions to ensure that its connection to the SRS is secure. All data exchanged between the Registrar's system and the SRS shall be protected to avoid unintended disclosure of information. The Registrar shall employ commercially reasonable measures to prevent its access to the Registry System granted hereunder from being used to (1) allow, enable, or otherwise support the transmission by email, telephone, or facsimile of mass unsolicited advertising or solicitations to persons or entities other than its own existing customers; or (2) enable high volume, automated, electronic processes that send queries or data to the systems of the Registry, any other registry operated under an agreement with ICANN, or any ICANN-accredited the Registrar, except as reasonably necessary to register domain names or modify existing registrations.

Each EPP session shall be authenticated and encrypted using two-way secure socket layer ("SSL") protocol. The Registrar agrees to authenticate every EPP client connection with the SRS using both (i) a server certificate issued by a commercial Certification Authority to be chosen by the Registrar, subject to Registry's agreement, which agreement shall not be unreasonably withheld and (ii) its Registrar password, which it shall disclose only to its employees with a need to know. The Registrar agrees to notify the Registry within four (4) hours of learning that its Registrar password has been compromised in any way or if its server certificate has been revoked by the issuing Certification Authority or compromised in any way.

Additionally, the Registrar must ensure that access to registrant accounts is adequately protected by, at a minimum, a secure log-in process that requires username and password authentication and the Registrar must comply with all other security-related ICANN Registrar accreditation requirements.

Upon prior written notification to the Registrar, the Registry may require other industry standard security provisions, practices, or technology to ensure that the Registry System is secure and stable, which the Registry may adopt from time to time in its sole and complete discretion. In the event that the Registrar does not comply with the Registry standards, the Registry will provide the Registrar a 30-day notice to inform the Registrar of the need to either correct non-compliance or agree on a mutually acceptable plan with Registry to correct non-compliance, and the time period in which such plan must be completed. Failure to meet the standards at the end of the agreed period will constitute a material breach of the agreement. The Registry's failure at any time to declare a material breach does not constitute a waiver of its right to do so in the future.

- i. Handling of Personal information. The Registry shall notify the Registrar of the purposes for which Personal Information submitted to the Registry by the Registrar is collected, the intended recipients (or categories of recipients) of such Personal Information, and the mechanism for access to and correction of such Personal Information. The Registry shall take all steps required by applicable laws, rules, and regulations to protect Personal Information from loss, misuse, unauthorized disclosure, alteration or destruction. The Registry shall not use or authorize the use of Personal Information in a way that is incompatible with the notice provided to the Registrars or applicable laws, rules, and regulations. The Registry may from time to time use the demographic data collected for statistical analysis, provided that this analysis will not disclose individual Personal

Registry – Registrar Agreement

information and provided that such use is compatible with the notice provided to the Registrars regarding the purpose and procedures for such use.

- ii. Authorization Codes. The Registrar shall not provide identical Registrar-generated authorization <authinfo> codes for domain names registered by different registrants with the same Registrar. The Registry in its sole discretion may choose to modify <authinfo> codes for a given domain and shall notify the sponsoring Registrar of such modifications via EPP compliant mechanisms (i.e., EPP<poll> or EPP<domain:Info>). Documentation of these mechanisms shall be made available to the Registrar by the Registry. The Registrar shall provide the Registrant with timely access to the authorization code along with the ability to modify the authorization code; the Registrar shall respond to any inquiry by a Registrant regarding access to and/or modification of an authorization code within five (5) calendar days.
- j. Domain Name Lookup Capability. The Registrar agrees to employ in its domain name registration business the Registry’s domain directory service (Whois) registry domain name lookup capability to determine if a requested domain name is available or currently unavailable for registration. The Registrar also agrees, at its expense, to provide an interactive web page and a port 43 Whois service, subject to compliance with ICANN requirements, providing free public query-based access to up-to-date (i.e., updated at least daily) data concerning all active Registered Names sponsored by the Registrar for the TLD. The data accessible shall consist of elements that are designated from time to time according to an ICANN-adopted specification or policy or the Registrar Accreditation Agreement between the Registrar and ICANN.
- k. Transfer of Sponsorship of Registrations. The Registrar agrees to implement transfers of Registered Name registrations from another Registrar to the Registrar and *vice versa* pursuant to the Inter-Registrar Transfer Policy as may be amended from time to time by ICANN.
- l. Time. The Registrar agrees that, in the event of any dispute concerning the time of the entry of a domain name registration into the Registry database, the time shown in the Registry records shall control.
- m. Compliance with Operational Requirements. The Registrar shall comply with each of the following requirements, as may be in effect from time to time, and, further, shall include in its registration agreement with each Registrant an obligation for such Registrant to comply with each of the following requirements:
 - i. ICANN standards, policies, procedures, and practices for which the Registry has monitoring responsibility in accordance with the Registry Agreement or other arrangement with ICANN; and
 - ii. Operational standards, policies, procedures, and practices for the TLD established from time to time by the Registry in a non-arbitrary manner and applicable to all Registrars (“Operational Requirements”), including affiliates of the Registry, and consistent with the Registry’s Registry Agreement with ICANN, as applicable, upon the Registry’s notification to the Registrar of the establishment of those terms and conditions upon 90-day notice,

Registry – Registrar Agreement

except in circumstances where a regulatory body (e.g. ICANN) or law enforcement mandates registries to meet shorter deadlines, in which case the Registrar will work with the Registry to agree on an appropriate date to implement such changes.

- n. Resolution of Technical Problems or Breach of Agreement. The Registrar agrees to employ necessary employees, contractors, or agents with sufficient technical training and experience to respond to and fix all technical problems concerning the use of the Supported Protocol, the APIs, and the Registry's SRS in conjunction with the Registrar's systems. The Registrar agrees that, in the event of significant degradation of the SRS or other emergency, or upon the Registrar's violation of the Registry operational requirements or breach of this Agreement, the Registry may, in its sole discretion, temporarily suspend or restrict access to the SRS. Such temporary suspensions or restrictions shall be applied in a non-arbitrary manner and shall be applied non-discriminatorily to any Registrar similarly situated, including affiliates of the Registry.
- o. Prohibited Domain Name Registrations. In addition to complying with ICANN standards, policies, procedures, and practices limiting domain names that may be registered, the Registrar agrees to comply with applicable statutes and regulations limiting the domain names that may be registered, as well as the Registry's Acceptable Use Policy and Naming Policy, as may be amended from time to time by the Registry at its sole discretion.
- p. ICANN Requirements. The Registry's obligations hereunder are subject to modification at any time as the result of ICANN-mandated requirements and ICANN Consensus Policies. Notwithstanding anything in this Agreement to the contrary, the Registrar shall comply with any such ICANN requirements in accordance with the timeline defined by ICANN.
- q. Accredited Registrar. During the term of this Agreement, the Registrar shall maintain in full force and effect its accreditation by ICANN as a Registrar for the TLD under the 2013 Registrar Accreditation Agreement or any subsequent version thereof. Failure to maintain such accreditation shall constitute a material breach of this Agreement.

3. License

- a. License Grant. Subject to the terms and conditions of this Agreement, the Registry hereby grants the Registrar and the Registrar accepts a non-exclusive, royalty-free, non-transferable, worldwide limited license to use for the Term and purposes of this Agreement the Licensed Product, as well as updates and redesigns thereof, to provide domain name registration services in the TLD only and for no other purpose. The Licensed Product, as well as updates and redesigns thereof, will enable the Registrar to register domain names in the TLD with the Registry on behalf of its Registrants. The Registrar, using the Licensed Product, as well as updates and redesigns thereof, will be able to invoke the following operations on the SRS: (i) check the availability of a domain name, (ii) register a domain name, (iii) renew a domain name, (iv) cancel the registration of a domain name it has registered, (v) update the nameservers of a domain name, (vi) transfer a domain name from another Registrar to itself with proper authorization (or *vice versa*), (vii) query a domain name registration record, (viii) register a nameserver, (ix) update the IP addresses of a nameserver, (x) delete a nameserver, (xi) query a nameserver, and (xii) establish and end an authenticated session.

Registry – Registrar Agreement

- b. Limitations on Use. Notwithstanding any other provisions in this Agreement, except with the prior written consent of the Registry, the Registrar shall not: (i) sublicense the Licensed Product or otherwise permit any use of the Licensed Product by or for the benefit of any party other than the Registrar, (ii) publish, distribute or permit disclosure of the Licensed Product other than to employees, contractors, and agents of the Registrar for use in the Registrar's domain name registration business, (iii) decompile, reverse engineer, copy, or re-engineer the Licensed Product for any unauthorized purpose, (iv) use or permit use of the Licensed Product in violation of the laws of the Commonwealth of Massachusetts, or for any unlawful purpose. The Registrar agrees to employ the necessary measures to prevent its access to the SRS granted hereunder from being used to (i) allow, enable, or otherwise support the transmission by email, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the Registrar's customers; or (ii) enable high volume, automated, electronic processes that send queries or data to the SRS of the Registry or any ICANN-Accredited Registrar, except as reasonably necessary to register domain names or modify existing registrations.
- c. Changes to Licensed Materials. The Registry may from time to time replace or make modifications to the Licensed Product licensed hereunder, at its sole discretion, provided that the Registry provides 90 days' notice to the Registrar to implement material changes that alter the functionality of the Licensed Product, except in circumstances where a regulatory body (e.g., ICANN) or law enforcement agency mandates registries to meet shorter deadline, in which case the Registrar will work with the Registry to agree on an appropriate date to implement such changes. For the avoidance of doubt, design or usability improvements to the web interface to Espresso shall not be considered material changes.

4. Support Services

- a. Engineering Support. The Registry agrees to make available to the Registrar with reasonable Registrar Liaison telephone support (between the hours of 9AM and 5PM UTC or at such other times as may be mutually agreed upon) to address issues arising in connection with the Registrar's use of the SRS.
- b. Customer Service Support. During the Term of this Agreement, the Registry will make customer service support available to the Registrar only, and not to Registrants or prospective customers of the Registrar, at the service levels set by ICANN, for nontechnical issues solely relating to the SRS and its operation. The Registry may make additional levels of customer service support available to the Registrar at its sole discretion. The Registry will provide the Registrar with a telephone number and email address for such support during implementation of the Licensed Product. First-level telephone support will be available on a 7-day/24-hour basis.

5. Fees

- a. Registration Fees.
 - i. The Registrar agrees to pay the Registry all non-refundable fees for initial and renewal registrations and other services provided by the Registry (collectively, the "Registration Fees").

Registry – Registrar Agreement

- ii. The Registry reserves the right to adjust Standard and Premium domain name Registration Fees, within certain notification periods as listed below

Fee Adjustment Event	Notification Period
1) Standard and premium tier level price changes*:	
A) For all unregistered domains: increase or decrease to a standard or premium tier level rate i.e., for new (domain:create), renewal, transfer, or redemption transactions	45 days**
B) For all registered domains: renewal rate decrease (domain:renew)	60 days
C) For all registered domains: renewal rate increase (domain:renew)	180 days
2) A subset of domains within a tier:	
A) A tier assignment increase or decrease for unregistered domains: i.e., the moving of a subset of unregistered domains from one tier to another tier	30 days
B) A tier assignment decrease for registered domains: i.e., the movement of a subset of registered domains to a lower priced tier for renewal	30 days
C) A tier assignment increase for registered domains: i.e., the movement of a subset of registered domains to a higher renewal priced tier	180 days
3) Reserved domains change of status	
A) Change of unpriced reserved domains to priced (available or reserved)	45 days
B) Change of priced reserved domains to available	30 days
C) Sale of reserved domain (priced or unpriced) to a buyer	24 hours

* for the avoidance of doubt, a standard or premium tier level change relates to all domains (i.e., registered or unregistered) within a specific level/tier rate such as the standard rate or a premium tiered rate.

** Registry will provide a 60-day notification if change will impact 6 or more TLDs simultaneously

Administrative adjustments: if the registry makes a pricing error on a subset of unregistered domains, the registry will first reserve the mispriced, unregistered domains and will re-release with correct pricing after a 30-day notice period (3B).

Any such notice may be by email, hand, registered mail, courier or express delivery service, or may be posted to the Registry's website.

- iii. All Registration Fees are due within thirty (30) days of the invoice date. The Registrar may be required to fund a Registrar Payment Account ("RPA") with the Registry from which its Registration Fees for any transaction will be debited immediately and to which credits, if any, due the Registrar will be refunded. In the event that the Registrar's RPA does not

Registry – Registrar Agreement

have sufficient funds to immediately pay a Registration Fee, then the Registry may, at its sole discretion, suspend the Registrar and registrations will not be accepted until the Registrar's RPA is replenished with sufficient funds to pay the Registration Fees for its submitted transactions. Credit may be granted in the Registry's sole discretion.

- iv. The Registration Fees due under this Agreement are exclusive of tax. All taxes, duties, fees, and other governmental charges of any kind (including sales, turnover, service, use and value-added taxes, but excluding taxes based on the net income of the Registry) which are imposed by or under the authority of any government or any political subdivision thereof on the fees for any services, software, and/or hardware shall be borne by the Registrar and shall not be considered a part of, a deduction from, or an offset against such Registration Fees. All payments due to the Registry shall be made without any deduction or withholding on account of any tax, duty, charge, or penalty except as required by law, in which case, the sum payable by the Registrar from which such deduction or withholding is to be made shall be increased to the extent necessary to ensure that, after making such deduction or withholding, the Registry receives and retains (free from any liability with respect thereof) a net sum equal to the sum it would have received but for such deduction or withholding being required.
- b. Change in Registrar Sponsoring Domain Name. The Registrar may assume sponsorship of a Registrant's existing domain name registration from another Registrar by following the Inter-Registrar Transfer Policy.
 - i. For each transfer of the sponsorship of a domain-name registration under the Inter-Registrar Transfer Policy, the Registrar agrees to pay the Registry the renewal registration fee associated with a one-year extension, as set forth above. The losing Registrar's Registration Fees will not be refunded as a result of any such transfer. The Registry reserves the right to charge transfer and other fees, as appropriate, with 180 days' written notice; or
 - ii. For a transfer approved by ICANN under the Inter-Registrar Transfer Policy, the Registrar agrees to pay the Registry the equivalent of a one-year registration fee for each domain-name transferred.
 - c. Charges for ICANN Fees. The Registry will immediately debit the Registrar's RPA or account for any variable registry-level fees paid or to be paid by the Registry to ICANN relating to the Registrar and the Registrar's transactions. The fee will consist of two components; each component will be calculated by ICANN for each Registrar:
 - i. The transactional component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year.
 - ii. The per-Registrar component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year.

Registry – Registrar Agreement

- d. Non-Payment of Fees. Timely payment of fees owing under this Section 5 is a material condition of performance under this Agreement. In the event that the Registrar fails to adequately fund its RPA or fails to pay its Registration Fees in a timely manner, the Registry will issue a 15-day notice to the Registrar requesting the payment for all outstanding invoices. If, by the end of the notice period, all invoices remain unpaid, the Registry may, at its sole discretion:
- i. stop accepting new or renewal registrations from the Registrar;
 - ii. delete the domain names associated with invoices not paid in full from the Registry database;
 - iii. give written notice of termination of this Agreement pursuant to Section 6(a)(ii) (Miscellaneous: Term of Agreement and Termination: Termination for Cause) below; and/or
 - iv. pursue any other remedy under this Agreement.

- i. Term of the Agreement; Revisions. The duties and obligations of the Parties under this Agreement shall apply from the Effective Date through and including the last day of the calendar month sixty (60) months from the Effective Date (the “Initial Term”). Upon conclusion of the Initial Term, all provisions of this Agreement will automatically renew for successive five (5) year renewal periods until the Agreement has been terminated as provided herein, the Registrar elects not to renew, or the Registry ceases to operate the registry for the TLD. In the event that revisions to the Registry’s Registry-Registrar Agreement are approved or adopted by ICANN, the Registrar shall have thirty (30) days from the date of notice of any such revision to review, comment on, and execute an amendment substituting the revised agreement in place of this Agreement, or the Registrar may, at its option exercised within such thirty (30) day period, terminate this Agreement immediately by giving written notice to the Registry; provided, however, that in the event the Registry does not receive such executed amendment or notice of termination from the Registrar within such thirty (30) day period of the date of the notice, the Registrar shall be deemed to have executed such amendment as of the thirty-first (31st) day after the date of the notice.
 - ii. Termination for Cause. In the event that either Party materially breaches any term of this Agreement including any of its representations and warranties hereunder and such breach is not substantially cured within thirty (30) calendar days after written notice thereof is given by the other Party, then the non-breaching Party may, by giving written notice thereof to the other Party, terminate this Agreement as of the date specified in such notice of termination.
 - iii. Termination at Option of Registrar. The Registrar may terminate this Agreement at any time by giving the Registry thirty (30) days prior written notice of termination.

Registry – Registrar Agreement

- iv. Termination Upon Loss of Registrar’s Accreditation. This Agreement shall terminate immediately in the event that the Registrar’s accreditation by ICANN, or its successor, is terminated or expires without renewal.
 - v. Termination in the Event that Successor Registry Operator is Named. This Agreement shall terminate in the event that ICANN, as appropriate, designates another entity to operate the registry for the TLD.

 - v. Effect of Termination. Upon expiration or termination of this Agreement, the Registry will, to the extent it has the authority to do so, complete the registration of all domain names processed by the Registrar prior to the date of such expiration or termination, provided that the Registrar’s payments to the Registry for Registration Fees are current and timely. Immediately upon any expiration or termination of this Agreement, the Registrar shall (i) transfer its sponsorship of Registered Name registrations to another licensed Registrar(s) of the Registry, in compliance with Part B of the Inter-Registrar Transfer Policy, or any other procedures established or approved by ICANN, and (ii) either return to the Registry or certify to the Registry the destruction of all data, software, documentation, and Confidential Information it has received under this Agreement. In the event of termination, the Registry reserves the right to immediately contact any and all Registrants to facilitate the orderly and stable transition of Registrants to other ICANN-accredited Registrars. All fees owing to the Registry shall be immediately due and payable.
 - vi. Survival. The exclusive venue for such action shall be the courts of the Commonwealth of Massachusetts. The Registrar waives any right to object to venue or jurisdiction based on inconvenient forum or for any other reason, and the Registrar waives any statutory or other right pursuant to the laws of the jurisdiction in which the Registrar resides to have a case relating to this Agreement adjudicated or resolved in that jurisdiction.
